Normandy Road
Framingham, MA

ENGINEER
CDM Smith

PROJECT VALUE
\$1,113,115

Scope of Services

Bore Field Preparation – The scope of our work on Normandy Road is to support the main Eversource geothermal project by performing all work necessary in and around the bore field in the Normandy Road parking lot.

Project Notes

- + Remove all existing asphalt from parking lot.
- + Install supply and return piping for geothermal loop.
- + Excavate and backfill for pumphouse and retaining wall.
- + Install all utilities for pumphouse, install/remove drilling platforms.
- + Install manifolds, plumb in all piping, and connect manifolds to pumphouse.
- + Regrade and repave parking lot.
- + GPS was used for grading and layout to enhance precision.
