

OWNER
Eversource Energy

ADDRESS
Framingham, MA

ENGINEERS
CDM Smith
Cornerstone Energy
Celsius Energy

PROJECT VALUE
\$23,000,000

Scope of Services

Network Geothermal – R.H. White was awarded this first-of-its-kind networked geothermal pilot construction project. Eversource and R.H. White have a strong history of working together on complex projects across multiple business areas. Our extensive experience with plastic pipe installations ensured the project would be completed efficiently and to the highest quality.

Project Notes

- + Bore field design and drilling performed by Celsius Energy.
- + Drill 90 bores in three fields and install the one-mile ambient loop which will service 37 buildings – commercial, multifamily, municipal, and single-family homes.
- + Construct geothermal wells, loop main, service lines, and pump house.
- + Pressure test all service connections and the distribution loop, electrical and controls testing, startup and commissioning.
- + R.H. White performed all building conversions.
- + R.H. White will assist Eversource with operations and maintenance for 24 months from the final, system in-service date.
